EAPC Replies

	Question	Reply
1.	In the tender there is no list of building materials required for the valve.	According to API 6D and the technical spec
2.	Our company represents a valves supplier that is not on the list of manufacturers listed in the tender documents. Kindly advise whether it is possible to offer a replacement manufacturer that meets international standards and is approved by terminals and fuel companies worldwide	The valve should be manufactured only by one of the manufacturers mentioned in clause 2 in the tender's document
3.	If u can please give an extension for giving offers till may 19th ?	Yes.
4.	Can you confirm that only European/American raw material origin will be accepted?	EAPC will confirm one of the manufacturers mentioned in clause 2 in the tender's document that will offer according to tenders' preconditions
5.	The spec shows buried service, will they need to fittings/tubing raised above grade? If so, what height does EACP want these to?	The valve should be design for underground service
6.	Since this will be buried, do they want us to include a below grade coating?	See technical spec
7.	reference to tender in subject, I kindly ask you to provide more information on the construction material for the valve.	According to API 6D and the technical spec
