1.	<p>We did not see an answer if you need a special face to face dimension for the Lug-type valve.</p> <p>EAPC Specification : The valve should be suitable for assembly between two 20", #150, RF flanges Distance between flanges need to be about 18".</p> <p>I list here below the weight for the same valve with different configuration of face-to-face and body style.</p> <p>20" class 150# triple offset butterfly API 609 cat B</p> <ul style="list-style-type: none"> · lug: face-to-face 127 mm (5"), weight around 260 kg · double flanged long pattern: face-to-face 457 mm (18") , weight around 450 kg · lug type with special face-to-face: face-to-face 457 mm (18") , weight around 870 kg 	<p>The question is not clear. The valve FTF need to be 457 mm Please send drawings to all the offers you are sending</p>

2.	<p>Closing date of this tender is tomorrow 26-10-21 at 11.00h</p> <p>Can you pls extend closing date ?</p>	<p>The date of submitting the proposals was postponed to 02/11/2021 at 11:00 am israel time.</p>
3.	<p>Eventhough clarification phase has passed I wish to get full understanding regarding technical requirements :</p> <ol style="list-style-type: none"> 1. Lug type valve is in accordance to API 609 CAT. A ; the valve FTF is in accordance 127mm , and not 457mm – is it fine to offer accordingly ? 	<p>The valve FTF need to be 457 mm Please send drawings to all the offers you are sending</p>
