Public Tender No. 21013216

Goods: Basket Strainer

Please see below EAPC clarifications and replies to questions and comments received from potential participants:

EAPC replies and clarifications below become an integral part of this Tender and will force the bidders.

EAPC Replies

	Question	Reply
1.	What is the flow rate?	Not relevant.
2.	What is the fluid? (Water, oil).	Not relevant.
3.	If the multiple baskets are mandatory?	No.
4.	If the height of the basket strainer is restricted?	According to purchase specification.
5.	Please may you confirm what is required as it mentions 32" flanged but then mentions 36" pipe?	The pipe connections of the filter are 32" diameter (flanged). The body of the basket strainer should be 36" or greater.
6.	What type of medium needs to be filtered? Please also let us know the design temperature of the housing. Without the requested data, we can't start preparing an offer. The deadline is set by you for November 24. We'll ask for a week's postponed.	The medium is gaseous, the filter is supposed to remove solid particles from the gas. Design temperature of the strainer is AMBIENT. The request is rejected and the deadline for submission remains on 24 of November on 11:00, Israel time.

7.	<p>Will EAPC consider an alternative basket strainer design as detailed within the attached data sheet. Deviations would include:-</p> <ul style="list-style-type: none">Bolted closure with davit instead of quick opening closureSingle basket instead of multi-basketBody diameter much larger to accommodate cylindrical basket and avoid excessive pressure drop. <p>Please confirm that the above could be considered.</p> <p>In addition, to enable us to ensure suitability for the application, please provide full process data. Please also furnish any applicable project specifications.</p>	<p>The purchase requirements are 100 mesh, not 40.</p> <p>The strainers are to be assembled on a existing line, hence the dimension requirements.</p>
